Conference on
**Innovative Applications of Geosynthetics
in Sustainable Infrastructure and
Environmental Protection**

Venue: At CBIP, Malcha Marg, Chankyapuri, New Delhi

Date: 21 - 22 Jan 2025 (Tuesday – Wednesday)

Organized by

Central Board of Irrigation & Power

INTRODUCTION

As India rapidly expands its infrastructure and strengthens its environmental protection initiatives, geosynthetics play an increasingly critical role in delivering cost-effective, durable, and sustainable solutions.

In order to discuss the various issues related to the Subject, CBIP jointly with IGS is organising a conference on Innovative Applications of Geosynthetics in Sustainable Infrastructure and Environmental Protection on 21 - 22 January 2025 (Tuesday – Wednesday) at CBIP, New Delhi.

This conference will explore the latest innovations in geosynthetics for roadways, railways, embankments, and environmental projects, offering insights into their application in both infrastructure development and environmental preservation.

TOPICS

The conference will cover, but not limited to, the following topics:

- Day 1: Focus on infrastructure, highlighting geosynthetics in road construction, embankments, railways, and water management.
- Day 2: Address environmental protection with sessions on waste management, landfill engineering, erosion control, and geosynthetics in sustainable development.

The above themes blend innovation with real-world applications, showcasing geosynthetics as a key technology for India's infrastructure growth and environmental sustainability.

CALL FOR PAPERS

The experts, researchers, engineers, and industry professionals are invited to contribute papers/ presentations on the topics and share their knowledge, experiences, and groundbreaking research to enrich the discourse and drive advancements in this field.

WHO SHOULD ATTEND

The conference on “Innovative Applications of Geosynthetics in Sustainable Infrastructure and Environmental Protection” is ideal for professionals across infrastructure development, environmental engineering, and sustainable construction. Attendees will include civil engineers, environmental specialists, policy makers, geotechnical consultants, and academia who are interested in the latest geosynthetic applications for resilient and eco-friendly infrastructure. This event also welcomes manufacturers and suppliers of geosynthetics, providing a platform to explore emerging trends, share insights, and foster collaborations that support sustainable development and environmental preservation across India.

TAKEAWAYS FOR PARTICIPANTS:

- Understanding of advanced geosynthetic materials and their applications in infrastructure.
- Best practices in using geosynthetics for environmental protection, including erosion control and landfill management.
- Case studies on successful geosynthetic solutions in India and globally.

DATES & VENUE

The date for the event is 21 - 22 Jan 2025 (Tuesday – Wednesday) at CBIP Hall, (1st Floor), CBIP Building, Malcha Marg, Chanakyapuri, New Delhi
